

Slimline

Glazing & Aluminium Systems Ltd.

About Us

At Slimline Glazing we work closely with our clients to bring concepts in structural glazing, aluminium design and manufacturing into reality;

We're at the forefront of the specialist glass market with unique and contemporary design innovations.

From glass bridges and staircases to free-standing external glass structures, Slimline glazing delivers seamless structural solutions from design through to installation.

Our objective is to take charge of each unique project to ensure a professional service with our in house architect service and our preferred building contractors were required, to give you an efficient and seamless installation of your project.

We are justifiably proud of our reputation for customer service and product quality.

Our Aluminium Glazing Range

Why Choose Us

We specialise in the supply and installation of structural glazing works and an extensive range of bespoke aluminium & glazing products.

As a company we pride ourselves on our customer service and satisfaction, product knowledge and experience to ensure we can offer our customers the highest quality products with service to match.

All our glazing products we install incorporate unique features that set us apart from other companies. This approach enables us to offer a product range from the slimmest of sliding doors to the most frameless of others, one of the slimmest sliding doors on the market (the SL17) is an environmentally friendly door system with a centre pane U value of 1.0, to frameless single glazed internal room dividers which are used in the commercial and domestic market place as we also look at all energy saving aspects of all our projects.

We believe that our systems require specialist installation teams, to give you complete piece of mind from start to finish for your project.

We offer the highest level of expertise and customer satisfaction with our in house services and preferred building contractors we are able to deal with projects of any size.

Our in house Services consist of:

- ◆ PROJECT MANAGEMENT
- ◆ ARCHITECTURAL SERVICES
- ◆ PRODUCT SOURCING
- ◆ PREFERRED CONTRACTORS
